

# HE-VA Multi-Seeder

*Precise small seed application*

**HE-VA**  
distributed by 

The HE-VA Multi-Seeder range includes a variety of models to suit different applications. The Multi-Seeder is commonly used to apply grass seed, oilseed rape and slug pellets but can be used to apply many other small seeds and granules. HE-VA have developed bespoke fitting kits to suit the majority of cultivators and rollers ensuring that the operation of neither the host machine or seeder are compromised. Furthermore the Multi-Seeder Twin offers the ability to apply two different products at the same time controlled by a single control box in the cab.

The ability to select either mechanical or electronic metering and control (choose from broadcast or band sowing outlets and specify the seed roller type) enables precision whatever the application. A Multi-Seeder is equally at home band sowing oilseed rape on a 3m subsoiler as it is on an 8m Disc Roller broadcasting cover crops.

- Simple calibration and rate setting - easy to set up
- Individual metering for each outlet - precision
- Failsafe operator alarms - peace of mind
- Bespoke HE-VA machine fitting kits - no compromise

## FEATURES

### RDS CONTROL BOX

Full in cab control and monitoring on electronic machines with on the move variable rate control.

### RADAR

Accurate forward speed measurement for precise seeding.

### METERING ROLLER

Individual metering rollers for each outlet which can be specified depending on product to be applied.

### CALIBRATION KIT

Simple calibration and rate setting.

### QUICK EMPTY CHUTE

Easy to use. Quick empty chute for leftovers.

## MULTI-SEEDER SPECIFICATION

Model	Description	Outlets	Fan	Hopper Capacity
100538610	Multi-Seeder 8 electronic	8	Twin 12V	200l
100538615	Multi-Seeder 8 pro electronic	8	Hydraulic	200l
100538710	Multi-Seeder 8 pro electronic	8	Hydraulic	410l
100538752	Multi-Seeder 12 pro electronic	12	Hydraulic	420l
100538720	Multi-Seeder 8 twin pro electronic	2 x 8	Hydraulic	2 x 100l
100538730	Multi-Seeder 12 twin pro electronic	2 x 12	Hydraulic	90l + 140l

Fertiliser resistant versions available on request.
