

# HE-VA Evolution Rape Seeder

*Give your crop the best possible start*

**HE-VA**  
distributed by 

Whilst Oilseed Rape is a profitable break crop its establishment is becoming increasingly difficult with Flea Beetle hammering crops at cotyledon stage, blackgrass issues and pressure from slugs.

The NEW **Evolution** Rape Seeder combats all of the challenges to good OSR establishment. Available in 3m, 4m and 5m working widths, the Evolution Rape Seeder incorporates all the technical developments that HE-VA and OPICO have brought to the subsoiler seeding market over the past 10 years. The Evolution Rape Seeder is designed to ensure the crop is given the best possible start.

## FEATURES

### DISC OPENERS

Slice through the soil surface ensuring the following tine does not break it open. Lower soil disturbance prevents/reduces black-grass germination.

### TINES & POINTS

Low disturbance medium depth tines and points alleviate compaction and encourage rape rooting.

### V-PROFILE ROLLER

Reconsolidates and creates micro-tilth around the soil opening.

### TWIN MULTI-SEEDER

Precise OSR seed and slug pellet metering through a single control box. Accurately applies seed and slug pellets in the same pass.

### ACCU-DISC

Double disc coulter for exact, consistent seed depth and consolidation.

- Optional Nitro-Band or Nitro-Jet – band granular or liquid fertiliser placement to give the young plant a boost.

## EVOLUTION RAPE SEEDER

Model	Working Width	Transport Width	Protection	No. of Tines	HP Required
Evolution3/7SB	3m	3m	Shearbolt	7	170+
Evolution3/7HYD	3m	3m	Hydraulic Reset	7	170+
Evolution4/9SB	4m	2.5m	Shearbolt	9	250+
Evolution4/9HYD	4m	2.5m	Hydraulic Reset	9	250+
Evolution5/11SB	5m	2.5m	Shearbolt	11	300+
Evolution5/11HYD	5m	2.5m	Hydraulic Reset	11	300+

Liquid or granular fertiliser kit to suit requirements - £POA  
NB: Tine spacing to be specified on order
