

Disc Roller XL **Contour**

Precise primary and secondary cultivation & consolidation

Disc Roller XL Contour 6 working widths:

2.75m Rigid

4.25m, 5.25m, 6.25m, 7.25m and 7.75m Folding

HE-VA

Distributed by **OPICO**

Precise primary and secondary cultivation & consolidation

In response to demand for a heavier disc type machine HE-VA has developed the Disc Roller XL Contour designed for more aggressive cultivation than its smaller sibling, the Disc Roller Contour, affords.

Sharing many of the standard features the XL has larger 610mm diameter discs which enable it to work deeper, at depths of up to 160mm (6 1/4").

Deeper cultivation allows the Disc Roller Contour XL to cope with greater amounts of crop residues as well as the destruction of cover crops. On two section 6m and three section 7.5m models the chassis frame has been adapted for increased strength and durability.

OPTIONAL EXTRAS

- Shattabboards / Slicerboards
- Top Cutter
- Soil Mat
- Air brakes
- Hydraulic brakes
- Front wheels
- Multi seeder fitting kit
- Following harrow

HE-VA Product Manager, Glenn Bootman, commented "The Disc Roller XL can be used for both shallow and deep cultivation and incorporation of crop or cover crop residues.

This one pass, high speed, versatile cultivator ticks the box for reducing cost per hectare – essential in today's modern farming systems".

- Versatile cultivation
- 610mm x 6mm Sabre Discs
- DSD system
- SAT Contour following system
- Increased clearance
- Transport locks
- Rear roller options
- Border deflectors
- Electric depth stop standard
- LED lights standard
- Pivoting support wheels standard on 650 & 750 models

DISC ROLLER XL CONTOUR SPECIFICATIONS

Model	Working Width	Transport Width	Frame	Rollers	Weight
300	2.75m	3.00m	Rigid	Single 700mm V-Profile Roller	2990kg
450	4.25m	2.52m	Folding	Single 700mm V-Profile Roller	4300kg
550	5.25m	2.52m	Folding	Single 700mm V-Profile Roller	5100kg
650	6.25m	2.62m	Folding	Single 700mm V-Profile Roller	7125kg
750	7.25m	2.62m	Folding	Single 700mm V-Profile Roller	8275kg
300	2.75m	3.00m	Rigid	Twin 600mm V-Profile Roller	3080kg
450	4.25m	2.52m	Folding	Twin 600mm V-Profile Roller	4340kg
550	5.25m	2.52m	Folding	Twin 600mm V-Profile Roller	5090kg
650	6.25m	2.62m	Folding	Twin 600mm V-Profile Roller	7050kg
750	7.25m	2.62m	Folding	Twin 600mm V-Profile Roller	8100kg
300	2.75m	3.00m	Rigid	Twin 600mm U-Profile Roller	2790kg
450	4.25m	2.52m	Folding	Twin 600mm U-Profile Roller	4010kg
550	5.25m	2.52m	Folding	Twin 600mm U-Profile Roller	4740kg
650	6.25m	2.62m	Folding	Twin 600mm U-Profile Roller	6630kg
750	7.25m	2.62m	Folding	Twin 600mm U-Profile Roller	7600kg

"On two section 450 & 550 and three section 650 & 750 models the chassis frame has been adapted for increased strength and durability."
