

Accu-Disc

"Double disc seeding toolbar"

The Accu-Disc seeding tool bar is available in working widths from 3m to 7m with double disc coulters units, in single or twin rows.

HE-VA

Distributed by **OPICO**

Accu-Disc double disc seeding toolbar

The HE-VA Accu-Disc is a double disc coulters with rubber press wheel, enabling seed placement to be controlled precisely and consistently to your required depth.

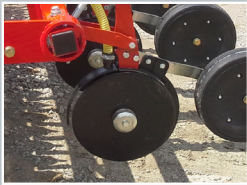

Once the subsoiler or cultivator has passed through and created some tilth on the surface and the roller has re-consolidated the soil the Accu-Disc coulters opens the soil and places the seed.

The press wheel ensures an even depth and assists with slot closure and seed to soil contact ensuring timely and even germination.

The Accu-Disc is a standard seeding unit on all HE-VA Evolution machines, and is commonly mounted to the HE-VA Subsoiler or Stealth.

The Accu-Disc double disc coulters opens the soil and places the seed in line with the machine leg.

FEATURES

DOUBLE DISC

The large double discs ensure the coulters can cope well with heavy trash and large clods. Flexible rubber scrapers keep the coulters clean.

PARALLELOGRAM

The parallelogram mounting of the coulters maintains constant pressure at an even depth even on very uneven seedbeds.

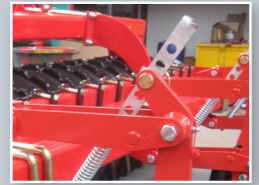

PRESS WHEELS

Individual rear rubber press wheels improve consolidation and seed to soil contact for excellent germination.

DEPTH ADJUSTMENT

Overall depth is controlled by a turn-buckle with a built in depth gauge.

COULTER PRESSURE

Coulters pressure is provided by a manual push and pull adjuster, allowing each coulters to be set to suit the conditions.

STANDARD SUBSOILER ACCU-DISC SPECIFICATIONS

Model	Description	NO. of Legs	Single: NO. of Coulters	Single Coulters	Twin: NO. of Coulters	Twin Coulters
3m	Mounted Rigid	5	5	260kg	10	378kg
3.5m	Mounted Rigid	7	7	327kg	14	493kg
4m	Mounted Folding	7	7	394kg	14	559kg
5m	Mounted Folding	9	9	487kg	18	700kg
5m	Trailed Folding	9	9	487kg	18	700kg
6m	Trailed Folding	11	11	581kg	22	841kg
7m	Trailed Folding	13	13	676kg	26	982kg

STEALTH ACCU-DISC SPECIFICATIONS

Model	Description	No. of Legs	NO. of Coulters	Single Coulters
3m	Mounted Rigid	6	6	312kg
3.5m	Mounted Rigid	7	7	327kg
4m	Mounted Folding	8	8	416kg
5m	Mounted Folding	10	10	520kg
6m	Mounted Folding	12	12	624kg

OPTIONAL EXTRAS

- Extra Disc with depth wheel, short clamp
- Extra Disc with depth wheel, long clamp for twin coulters drilling behind each leg
- Slug pellet applicator kit - per coulters
- HE-VA Multi-Seeders, c/w fitting kits
